

ROAD MAINTENANCE

Introducing an even better... **Road Razor™!**

Patented tip profile/new carbide grade combination enables optimum road-milling performance — with up to 5X less breakage — no matter how challenging your operating conditions!

Uniquely shaped tip, with a rounded edge, means more carbide involved in any type of cut — greatly improving tool rotation and wear uniformity!

Kennametal will significantly boost your road-planing productivity and profitability!

Let us prove it.
