

After a few too many burst pipes,
one company was hoping for a breakthrough.

What problem can we solve for you? A plastics manufacturer was moving abrasive pellets through pipes and blowing out elbows every few weeks. They asked us for help, and nine years later some pieces have yet to wear through—saving \$250,000 annually. Our metallurgical engineers can find similarly innovative solutions to the problems you're facing, then deploy and support them globally. Find out more at kennametal.com.
