## ***Increased Hardness and Strength!***

- Designed to replace Wirtgen HT11 and HT11R toolholders
- Extremely wear resistant upper section
- Heavy nose provides base protection and smooth material conveyance
- Removal notches and improved access for faster tool changes
- Oversize flange for base protection
- For 3/4" (20 mm) tools,  
• "-87" for 7/8" (22 mm) tools
- Set screw fits Wirtgen base and has anticorrosive coating for improved extraction
- Plastic cap preserves wrench pocket
